

Results of Environmental Review

- (1) Reference Number  
11-016
- (2) Project Name  
Construction of thermal power plant
- (3) Project Site  
Doukkala – Abda, Morocco
- (4) Project Outline  
Construction of coal-fired thermal power plant
- (5) Category  
A
- (6) Reason of Categorization  
The project falls into the large-scale thermal power sector under the Environmental Guidelines.
- (7) Environmental Permission/Approval by the Environmental Authority  
The Environmental Impact Assessment has been made under the relevant environmental regulations of Kingdom of Morocco, and approved by the Ministry of Energy, Mines, Water and Environment in August 2010.
- (8) Anti-Pollution Measures  
The predicted emission of air quality, water quality and noise are planned to meet the local standards and the international standards, and the other anti-pollution measures are also implemented appropriately.
- (9) Natural Environmental Considerations  
The project site is located adjacent to the existing power plant. There is enough distance between the project site and salt marshes around the site, and therefore no environmental impact can be foreseen by implementation of the project.

(10) Social Considerations

No resettlement or other social impacts have been undertaken by the project.

(11) Monitoring

Monitoring of air, water and noise etc. will be conducted by project proponent.
