

Results of Environmental Review

- (1) Reference Number
09-074
- (2) Project Name
Thermal power plant
- (3) Project Site
Dong Nai, Vietnam
- (4) Project Outline
Construction of a thermal power plant
- (5) Category
A
- (6) Reason of Categorization
The project falls into the large scale thermal power sector under the Environmental Guidelines.
- (7) Environmental Permission/Approval by the Environmental Authority
The Environmental Impact Assessment has been made under the relevant environmental regulations of Vietnam and approved by the Ministry of Natural Resources and Environment (MONRE) of Vietnam in January 2009.
- (8) Anti-Pollution Measures
The planned values for air quality meet the local standards and on the whole below/within the applicable international standards. The planned values for water quality and noise level meet the local standards and international standards. Other anti-pollution measures are also implemented appropriately.
- (9) Natural Environmental Considerations
The project does not include nationally-designated protected areas or protected areas under the international treaties. The appropriate mitigation measures for

small scale land development are taken during construction.

(10) Social Considerations

Regarding the consideration for the people affected socio-economically by the project including resettlement, mitigation measures are taken and have been appropriately implemented.

(11) Monitoring

Monitoring of air and water, etc. is conducted in accordance with the requirement of MONRE and to be reported to the Department of Natural Resources and Environment at Dong Nai province.
