

Results of Environmental Review

- (1) Reference Number
11-009
- (2) Project Name
Natural gas production and processing project
- (3) Project Site
Ras Laffan Industrial City, Qatar
- (4) Project Outline
Construction of natural gas production and processing plant
- (5) Category
A
- (6) Reason of Categorization
The project falls into the large-scale oil and natural gas development and pipeline sector, and the project is located near a sensitive area (i.e. habitats of rare protection species requiring, etc.) under the Environmental Guidelines.
- (7) Environmental Permission/Approval by the Environmental Authority
An Environmental Impact Assessment (EIA) report was developed in accordance with the local environmental impact assessment system and approved by the local authorities.
- (8) Anti-Pollution Measures
Planned values of air quality and water quality meet local and international standards. Other anti-pollution measures will be taken in an appropriate manner.
- (9) Natural Environmental Considerations
Conservation activities are taking place and no particular environmental impact is foreseen.
- (10) Social Considerations
No involuntary resettlement will be involved. Also, no adverse impact on cultural heritage or landscape is foreseen.

(11) Monitoring

The project proponent will conduct monitoring of air quality, water quality and ecosystem of marine life.
