

Results of Environmental Review

- (1) Reference Number  
12-025
- (2) Project Name  
Thermal power plant
- (3) Project Site  
A suburb of Amman, Jordan
- (4) Project Outline  
Construction and operation of thermal power plant
- (5) Category  
A
- (6) Reason of Categorization  
The project falls into the large-scale thermal power sector under the Environmental Guidelines.
- (7) Environmental Permission/Approval by the Environmental Authority  
The Environmental Impact Assessment report was prepared pursuant to the relevant environmental regulations of Jordan and Environment Permission has been obtained from the Ministry of Environment.
- (8) Anti-Pollution Measures  
Appropriate measures are being taken for air quality, water quality, waste and noise to follow the relevant local standards.
- (9) Natural Environmental Considerations  
The project site and its surrounding area do not include any protected areas designated under the local regulations. The project site neither includes a habitat of precious species nor includes any ecologically significant habitat.
- (10) Social Considerations  
The project involves no involuntary resettlement. There is a cultural heritage around the

project site, however, it is likely to have no significant adverse impact.

(11) Applied International Standards  
IFC Performance Standard.

(12) Monitoring  
The project proponent is planning monitoring of air quality, water quality, noise, etc.
