

Results of Environmental Review

- (1) Reference Number  
12-057
- (2) Project Name  
Machinery export for expansion of ethylene plant capacity
- (3) Project Site  
Izmir, Turkey
- (4) Project Outline  
Machinery export for expansion of ethylene plant capacity
- (5) Category  
A
- (6) Reason of Categorization  
The project falls into the large-scale petrochemical sector under the Environmental Guidelines.
- (7) Environmental Permission/Approval by the Environmental Authority  
The Environmental Impact Assessment report has been developed pursuant to the relevant environmental laws of Turkey. Environmental Permission has been obtained from the Ministry of Environment and Urban Planning in November 2012.
- (8) Anti-Pollution Measures  
Appropriate pollution prevention measures will be taken for air quality, water quality, waste, noise and vibration.
- (9) Natural Environmental Considerations  
The project site is located in the existing petrochemical complex which includes no protected areas and habitats of precious species. No negative impact due to operation of the project is anticipated on surrounding natural environment.
- (10) Social Considerations  
The project involves no involuntary resettlement as the project is implemented in the

existing petrochemical complex. No negative impact due to operation of the project is anticipated on surrounding cultural heritage and landscape.

(11) Applied International Standards

World Bank Safeguard Policy

(12) Monitoring

The project proponent has been conducting constant and regular monitoring, and regular reporting to the relevant environmental authorities.
