

Results of Environmental Review

- (1) Reference Number
13-060
- (2) Project Name
Polyethylene and Polypropylene Plant
- (3) Project Site
Balkan Province, Turkmenistan
- (4) Project Outline
Construction of Polyethylene and Polypropylene Plant
- (5) Category
Category A
- (6) Reason of Categorization
The project falls into the large-scale petrochemical sector under the Environmental Guidelines.
- (7) Environmental Permission/Approval by the Environmental Authority
The Environmental Impact Assessment report has been developed in accordance with Turkmenistan laws, and approved by the Ministry of Natural Protection in Turkmenistan.
- (8) Anti-Pollution Measures
Appropriate measures will be taken regarding air quality, water quality and noise to meet Turkmenistan and international standards. Other pollution prevention measures will also be taken in an appropriate manner.
- (9) Natural Environmental Considerations
The project site is not located at any protected area or habitat for rare species designated under the national law or international conventions.

(10) Social Considerations

Relocation of residents does not occur in the project site and measures for social considerations are properly managed.

(11) Applicable International Standards

World Bank Safeguard Policy

(12) Monitoring

The project proponent plans to monitor air quality, water quality, noise and so on. The monitoring results are supposed to be reported to relevant authority on a regular basis.
