

Results of Environmental Review

- (1) Reference Number
13-092
- (2) Project Name
Thermal Power Plant
- (3) Project Site
Greater Accra Region, Ghana
- (4) Project Outline
Construction of Thermal Power Plant
- (5) Category
Category A
- (6) Reason of Categorization
The project falls into the large-scale thermal power sector under the Environmental Guidelines.
- (7) Environmental Permission/Approval by the Environmental Authority
The Environmental Impact Assessment report has been developed in accordance with national laws, and approved by the Environmental Protection Agency in Ghana.
- (8) Anti-Pollution Measures
Appropriate measures will be taken regarding air quality, water quality and noise to meet national and international standards.
Other pollution prevention measures will also be taken in an appropriate manner.
- (9) Natural Environmental Considerations
Measures for natural environmental considerations are properly managed. The project site is not located at any protected area designated under the national laws or international conventions.

(10) Social Considerations

Measures for social considerations are properly managed. The project does not involve involuntary resettlement.

(11) Applicable International Standards

IFC Performance Standard

(12) Monitoring

The project proponent plans to monitor air quality, water quality, noise and so on. The monitoring results are supposed to be reported to the environmental authority and relevant authority on a regular basis.
