Results of Environmental Review

(1) Reference Number

17-012

(2) Project Name

Solar power plant

(3) Project Site

Amman Governorate, Jordan

(4) Project Outline

Construction and operation of a solar power plant

(5) Category

Category B

(6) Reason of Categorization

This project is not expected to have significant negative environmental impacts as it is not located in or near a sensitive area, nor has it environmentally sensitive characteristics under the Environmental Guidelines.

(7) Environmental Permission/Approval by the Environmental Authority

The ESIA (Environmental Social Impact Assessment) report was made in accordance with the laws and regulations in Jordan and approved by the Ministry of Environment of Jordan in August 2017.

(8) Anti-Pollution Measures

The adverse impact on environment including air quality, water quality and noise, etc. caused by this project is not assumed.

(9) Natural Environmental Considerations

There is no natural protection area or habitat for rare species near the premises.

(10) Social Considerations

Appropriate measures for social considerations are properly taken. The project does not involve involuntary resettlement.

(11) Applicable International Standards

IFC Performance standards

(12) Monitoring

The project proponent will conduct environment monitoring. The monitoring results are supposed to be reported to relevant authority on their request basis.

End

Questions

Q1.	Please provide the address of the project site.			
<u>Ac</u>	dress of the project site: Within Sahab Distric,	<u>2.5kr</u>	n northwest existing power plant.	
N R e I	tesources (MEMR) for the development and coxisting IPP4 power plant in the east of Amman	t (Lol onstru on Ja	I) with the Jordanian Minister of Energy and Mineral action of a solar PV power plant to be built next to the muary 18, 2015. Operate the solar PV power plant with the capacity	
please		ch as	an executing project? In case of an executing project, local residents, as well as improvement guidance or environmental authorities.	
	New Project Executing Project (without Claim etc.)		Executing Project (with Claim etc.) Others (Please specify)	
Q4. In case of this project, is it necessary to execute Environmental and Social Impact Assessment (ESIA) based on the laws or regulations of the country where the project is to be implemented? If necessary, please inform the progress of ESIA.				
	Required (Completed) Not Required		Required (Under execution or under planning) Others (Please specify)	
Q5. In case that ESIA is already completed, please inform whether ESIA report is already approved based on the environmental and social assessment system of the country where the project is to be implemented or not. If ESIA report is already approved, please provide the date and name of authorities of the approval.				
	Approved (without condition) Under approval process or completion during 2016)	☑	Approved (conditional) Others (Please specify- currently in progress, forecast	
	te of Approval:me of Authorities:			
Q6. If environmental and social permit(s) other than ESIA is required, please provide the name of required permit(s). Have you obtained required permit(s)?				
	Obtained		Required, but not obtained yet	
¥	Not required		Others (Please specify)	
Na	me(s) of required permit(s):			
Q7. Will the insurance be used for the undertaking that cannot specify the project at this stage (e.g. export or lease of machinery that has no relation with specific project, or Two Step Loan that cannot specify the project at the time of loan agreement)?				
	(No)			
If you If you	answered "Yes", it is not necessary to reply to answered "No", please reply to the following	the f	ollowing questions. ions.	

Q6. Are there any environmentally sensitive area(s) snown below in and around project site(s)?					
(No)					
If you answered "Yes", please select applicable items by marking, and reply to the following questions. If you answered "No", please reply to the questions 9 and after.					
 (1) National parks, nationally-designated protected areas (coastal areas, wetlands, areas for ethnic minorities or indigenous peoples and cultural heritage, etc. designated by national governments) (2) Forests with important ecological value (including primary forests and natural forests in tropical areas) (3) Habitats with important ecological value (including coral reefs, mangrove wetland and tidal flats) (4) Habitats of rare species requiring protection under domestic legislation, international treaties, etc. (5) Areas in danger of large-scale salt accumulation or soil erosion (6) Areas with a remarkable tendency towards desertification (7) Areas with unique archaeological, historical or cultural value (8) Areas inhabited by ethnic minorities, indigenous peoples or nomadic peoples with traditional ways of life (including areas which are used for cultural or spiritual purposes) and other areas with special social value 					
Q9. Does the project involve following characteristics?					
(No)					
If you answered "Yes", please describe the scale of applicable characteristics, and reply to the questions 10 and after. If you answered "No", please reply to the questions 11 and after.					
(1) Involuntary resettlement and/or loss of means of livelihood (Number of affected people: (2) Pumping of groundwater (Scale: m3 /year) (3) Land reclamation, development and/or clearing (Scale: ha) (4) Deforestation (Scale: ha)					
Q10. Under the environmental and social impact assessment system of the country where the project is to be implemented, do the applicable characteristics from (1) – (4) of the questions 9 and their scale serve as basis for executing an ESIA for the project?					
☐ They do ☐ They do not ☐ Others (Please specify)					
Q11. May the project involve significant social impacts?					
(No)					
If you answered "Yes", please describe the outline of the impacts, and reply to the questions 12 and after. If you answered "No", please reply to the questions 12 and after.					
The likelihood of severe project-related human rights impacts () Others ()					
Q12. Will the value insured by NEX1 in the export, loan or investment project be equal or less than 5% of the total project cost, or equal or less than SDR 10 million? (In the case of additional support for a past project, this shall be the accumulated total amount)					
(No)					
If you answered "Yes", it is not necessary to reply to the following questions. If you answered "No", please reply to the questions 13 and after.					

Q13. Does the project belong to either of the sectors that impact on the environment and society is deemed immaterial or is not anticipated under normal conditions (e.g. maintenance of the existing facilities, non-expansionary renovation project, and acquisition of rights and interests without additional capital investment)?

(No)

If you answered "Yes", it is not necessary to reply to the following questions. If you answered "No", please reply to the questions 14 and after.

Q14. Does the project belong to the following sectors?

(No)

If you answered "Yes", please specify the sector by marking, and reply to the questions 15 and after. If you answered "No", it is not necessary to reply to the following questions.

	(1)	Mining
<u> </u>	(2)	Oil and natural gas development
	(3)	Pipelines
F	(4)	•
	(5)	
	(6)	
		Petroleum refining
		Oil, gas and chemical terminals
		Paper and pulp
		Cement plants (including a greenfield quarry)
		Manufacturing and transport of toxic or poisonous substances regulated by international treaties, etc
		Thermal power
	(13)	Nuclear power
	(14)	Hydro power, dams and reservoirs
	(15)	Power transmission and distribution lines involving large-scale involuntary resettlement, large-scale
		logging or submarine electrical cables
	(16)	Roads, railways and bridges
	(17)	Airports
	(18)	Ports and harbors
	(19)	Sewage and wastewater treatment having sensitive characteristics or located in sensitive areas or
		their vicinity
		Waste management and disposal
		Agriculture involving large-scale land clearing or irrigation
<u></u>	-	Forestry
	(23)	Tourism (Construction of hotel, etc.)

Q15. Please provide information on the scale of the project (project area, area of plants and buildings, production capacity, amounts of power generation, etc.) Further, pleased explain whether an execution of EISA is required on account of the large scale of the project in the country where the project is implemented.

The Project site is located within the Sahab District in the Amman Governorate, approximately 2.5 km northeast of the Levant Power Plant [IPP4] built and operated by AES Jordan. The site has a proposed footprint of 498,000m², currently under the ownership of the Government of Jordan. The area to be covered by solar panels will be up to 350,000m².

At present, the development site is clear of structures and has been subject to recent earthworks by the Jordanian Ministry of Land. There is very sparse indigenous vegetation on-site and the Project site is not known to contain any sensitive flora or fauna.
