

Results of Environmental Review

- (1) Reference Number  
23-022
- (2) Project Name  
Combined cycle gas turbine power plant project
- (3) Project Site  
Guanajuato, Mexico
- (4) Project Outline  
The construction of combined cycle gas turbine power plant project
- (5) Category  
A
- (6) Reason of Categorization  
The project falls into the large-scale thermal power sector under the Environmental Guidelines.
- (7) Environmental Permission / Approval by the Environmental Authority  
An environmental impact assessment report and a social impact assessment report on this project have been prepared in accordance with the country's legislation. An environmental approval and a social approval have been granted with each collateral conditions by Secretaría del Medio Ambiente y Recursos Naturales in July 2019 and by Secretaría de Energía in May 2019, respectively.
- (8) Pollution Prevention  
Appropriate measures have been planned to address pollution including air quality, water quality, waste, and noise.
- (9) Natural Environmental Considerations  
No particular impact is foreseen for natural environment because the project is implemented in the existing project site.

(10) Social Considerations

No land acquisition is involved because the project is implemented in the existing project site, and appropriate measures will be taken to address other social impacts.

(11) Applied International Standards

IFC Performance Standards

(12) Monitoring

Monitoring including air quality, water quality, and waste is conducted, and monitoring result is to be reported to the environment authorities.

(end)

## Questions

**Q1.** Please provide the address of the project site.

The project will be installed in the current Salamanca Thermoelectric Power Plant (CT Salamanca). Location is Salamanca, Guanajuato, México.

**Q2.** Please provide a brief explanation of the project.

Located in Salamanca, Guanajuato. Salamanca is a construction of a combined cycle power plant with a net installed capacity of 927.10 MW ( $\pm 10\%$ ).

**Q3.** Is it a new project to be implemented or a project that has been implemented? If it has been implemented, has it received a serious complaint from local residents or a directive for improvement, a stop-work order, a project suspension order, etc., from a local environmental authority?

- ☒ New project to be implemented  
☐ Project that has been implemented (with a complaint)  
☐ Project that has been implemented (without a complaint)  
☐ Other ( )

**Q4.** Do the laws or regulations of the country where the project will be implemented require the project to conduct environmental and/or social impact assessments (such as an Environmental and Social Impact Assessment (ESIA) and Environmental Impact Assessment (EIA))? If so, have they been conducted or planned?

- ☒ Required (Assessments done) ☐ Required (Assessments in progress or being planned)  
☐ Not Required ☐ Other ( )

**Q5.** If environmental and/or social impact assessments have been conducted, have they been approved in accordance with the environmental and social impact assessment system of the country where the project will be implemented? If so, please also specify the date of the approvals and the name of the authorities.

- ☐ Approved (without condition(s)) ☒ Approved (with condition(s))  
☐ Under approval process ☐ Other ( )

Date of Approvals : MIA (Environmental Assessment) : July 19<sup>th</sup>, 2022. EVIS (Social Assessment): April 25<sup>th</sup>, 2019

Name of Authorities : SEMARNAT (Secretaría del Medio Ambiente y Recursos Naturales) and SENER (Secretaría de Energía)

**Q6.** Are there any environmental permits required other than environmental and/or social impact assessments? If so, have they been obtained? Also, if required, please specify the name of the permits.

- ☐ Obtained ☐ Required, but not obtained yet  
☒ Not required ☐ Other ( )

Name(s) of required permit(s) : \_\_\_\_\_

g

**Q7.** Will the project be specified after JBIC made a funding commitment (as in the case of a two-step loan, where sub-projects cannot be specified at the time of a funding commitment)?

(No)

If "Yes", please disregard the following questions.

If "No", please go to Q8.

**Q8.** Will JBIC's funding be used to serve as support for international balance of payments or to be used for the provision of goods or services that does not involve installation or implementation in particular sites or regions, as in the case of export/import or lease of machinery or equipment that is not connected with a particular project?

(No)

If "Yes", please disregard the following questions.

If "No", please go to Q9.

**Q9.** Are there any environmentally sensitive area(s) shown below in or near the project site(s)?

(No)

If "Yes", please mark the applicable items and go to Q10.

If "No", please go to Q10.

- ☐ (1) National parks, nationally-designated protected areas (coastal areas, wetlands, areas for ethnic minorities or indigenous peoples, and cultural heritage, etc., designated by national governments)
- ☐ (2) Forests with important ecological value (including primary forests and natural forests in tropical areas)
- ☐ (3) Habitats with important ecological value (including coral reefs, mangrove wetlands, and tidal flats)
- ☐ (4) Habitats of rare species requiring protection under domestic legislation, international treaties, etc.
- ☐ (5) Areas in danger of large-scale salt accumulation or soil erosion
- ☐ (6) Areas with a remarkable tendency towards desertification
- ☐ (7) Areas with unique archaeological, historical or cultural value
- ☐ (8) Areas inhabited by ethnic minorities, indigenous peoples, or nomadic peoples with traditional ways of life (including areas which are used for cultural and spiritual purposes) and other areas with special social value

**Q10.** Does the project involve the following characteristics?

(Yes)

If "Yes", please specify their scale and go to Q11.

If "No", please go to Q12.

- ☐ (1) Involuntary resettlement or loss of means of livelihood  
(Number of affected people: )
- X (2) Groundwater pumping (Scale: 782.184.59 m<sup>3</sup>/year)
- ☐ (3) Land reclamation, land development, and land clearing (Scale: ha)
- ☐ (4) Logging (Scale: ha)

**Q11.** Under the environmental and social impact assessment system of the country where the project will be implemented, do the applicable characteristics (1) – (4) of Q10 above and their scale serve as the basis for executing an ESIA for the project?

X Yes, they do

☐ No, they do not

☐ Other ( )

**Q12.** Is the project likely to have a significant social impact, including human rights?

(No)

If "Yes", please describe the impacts and go to Q13.

If "No", please go to Q13.

- ☐ Likelihood of a significant impact on human rights ( )  
☐ Other ( )

**Q13.** Will JBIC's funding or NEXI's insurable value be equal to or less than 5% of the total project cost, or will JBIC's funding or NEXI's insurable value be equal to or less than SDR 10 million? (If the funding or insurable value is additional to a project that has been supported by JBIC or NEXI, please add up the previous funding or insurable value and the funding or insurable value being considered to apply for this time.)

(No)

If "Yes", please disregard the following questions.

If "No", please go to Q14.

**Q14.** Is the project for capital investment or working capital in a project that has been implemented and does it involve no material change in output or function (as in the case of maintenance of the existing facilities, non-expansory renovation project, and acquisition of rights and interests without additional capital investment)?

(No)

If "Yes", please disregard the following questions.

If "No", please go to Q15.

**Q15.** Is the project in any of the following sectors?

(Yes)

If "Yes", mark the applicable sectors and go to Q16.

If "No", please disregard the following question.

- ☐ (1) Mining  
☐ (2) Oil and natural gas development  
☐ (3) Pipelines  
☐ (4) Iron and steel (projects that include large furnaces)  
☐ (5) Non-ferrous metals smelting and refining  
☐ (6) Petrochemicals (manufacture of raw materials; including complexes)  
☐ (7) Petroleum refining  
☐ (8) Oil, gas, and chemical terminals  
☐ (9) Paper and pulp  
☐ (10) Cement plants (including a greenfield quarry)  
☐ (11) Manufacture and transport of toxic or poisonous substances regulated by international treaties, etc.  
X (12) Thermal power  
☐ (13) Nuclear power  
☐ (14) Hydropower, dams, and reservoirs  
☐ (15) Power transmission and distribution lines involving large-scale involuntary resettlement, large-scale logging, or submarine electrical cables  
☐ (16) Roads, railways, and bridges  
☐ (17) Airports  
☐ (18) Ports and harbors  
☐ (19) Sewage and wastewater treatment having sensitive characteristics or located in sensitive areas or their vicinity

2

- ☐ (20) Waste management and disposal
- ☐ (21) Agriculture involving large-scale land-clearing or irrigation
- ☐ (22) Forestry
- ☐ (23) Tourism (construction of hotels, etc.)

**Q16.** Please provide information on the scale of the project (project area, area of plants and buildings, production capacity, amounts of power generation, etc.). In addition, please explain whether an environmental and/or social impact assessment is required on account of the large scale of the project in the country where the project will be implemented.

Project area:

The project will be located on an area of 5.18ha, within the premises of the Salamanca Thermoelectric Power Plant, located in the municipality of Salamanca, Guanajuato. It will consist of 2 gas turbines, 2 heat recovery steam generators and 1 steam turbine with aero condenser.

Production capacity: Net installed capacity of 927.10 MW

ESIA process:

The MIA report has already been submitted to SEMARNAT and approved.
